

publix

Row linking goes without saying

Design: M. Ballendat

Clear design and innovative details – these are the main characteristics of the new multi-purpose chair *publix* by Wiesner-Hager. With its low weight, excellent stackability and safe linking, *publix* is the ideal solution for mobile applications in large halls and multi-purpose rooms. The chair stacks with and without arms almost vertically and thus allows space efficient storage.

Design detail: The (optional) cut-out handle in the backrest allows easy movement of the chair but also provides a space for the insertion of logos or name tags as an element of personalisation. *publix* can be equipped with a writing tablet – an ideal accessory for seminar and training areas.

With a the combination of high-quality materials - wood and metal -, a great variety of fabric covers, ergonomically shaped shell and the appealing design, *publix* is excellent value for money.

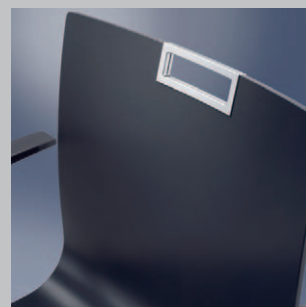

publix

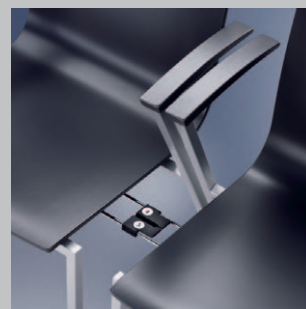

For training and seminars:
Writing tablet made from compact anthracite
laminate only, folding, retro-fitable.

Design detail:
Cut-out with matt-chrome
outline (optional), logos or
name tags may be inserted.

Safe linking:
Integrated row linking is
available on request – also
available with row numbers.

High-quality materials:
Slightly curved armrests made from
solid beechwood contrast the tubular
steel profile of the frame.

Space saving storage:
6 armchairs or 13 chairs without
arms stack almost vertically.
