

# Pedestals

sedus

## The beauty of order.

They say the state of your desk is a reflection of the state of your mind. Sedus pedestals offer the perfect storage space for all those who like to think and work in a linear, individual, stylish and efficient fashion. With their timeless designs and unique versatility, Sedus pedestals accommodate every taste perfectly. Sedus is an established brand which offers outstanding product quality and environmentally friendly manufacturing procedures.

## More freedom – less chaos.

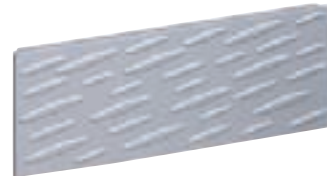

From the lateral desk-height or under-desk stationary pedestals to the mobile pedestals with a seat cushion – the possibilities are endless. Flexibility in the workplace is key. These practical mobile pedestals encourage dynamic sitting and standing and can be personalised with a business card (fig. above). The cupboards with full height pull-out drawer not only offer lots of storage space but also act as room dividers with screening and/or acoustic protection. Furthermore, they make ideal convergence points for stand-up meetings (fig. right).

**Modular system.**

The carcass, front, top shelf and D-handles can be mixed and matched. Suitable for adapting to existing office furnishings or for complementing other Sedus workstation systems.

**Fronts.**

Fronts are available smooth or embossed in a total of 30 different colours with the choice of laminate, painted or real wood veneer.

Line design front

**Back panel.**

Available in-set or smooth for a streamlined rear aspect.

**Castors / Glides.**

Castors convert the pedestal into a mobile work unit. Desk-height pedestals have height-adjustable glides to match desk height or counteract uneven floors.

#### **D-handles.**

High-quality material and attractive finishes. The perfect handle for every taste.

#### **Lateral handles.**

Front designs are available with lateral handles, which open smoothly from the side.

#### **Locking system.**

With a central lock, changeable cylinder and two reversible keys.

#### **Seat cushion.**

The mobile pedestal also acts as a stool – mobile seating directly at your workstation.

#### **Drawers.**

The interiors of the drawers can be organised as desired using accessory elements.

#### **Pull-out dynamics.**

Steel drawers with cushioning effect and concealed guides. Partial pull-outs (75%) and telescopic pull-outs (105%, standard with 6 HE) are also available.

### Mobile pedestals

**8 HE**  
Height 542 mm, width 430 mm, depth 600/800 mm
