The case against noise...

Research findings confirm improvements resulting from increased speech privacy.

Focus – The ability of office workers to focus on their tasks improved by 47%

Distractions – “Conversational distractions” decreased by 51%

Error-rates – Performance of standard “information worker” tasks improved by 10%

Stress – When measured in terms of the actual physical symptoms of stress, stress was reduced by 27%

–David M. Sykes, Ph.D. (2004)

Perceptions & Attitudes

- More than 70% of workers believe noise is the most significant workplace distraction
- Over 80% of workers believe a quieter environment would enable them to be more productive
- The majority of workers believe reducing distracting noise increases their productivity
- The majority of workers identify conversation as the type of noise that most affects work performance

– Armstrong World Industries, Dynasound, Milliken & Company, Steelcase, and the American Society of Interior Designers (2005)

“Over 80% of workers believe a quieter environment would enable them to be more productive”

Why Spacio Bricks?

Spacio Bricks are unique

Spacio Bricks is the first patented sound insulating cabin system for professional use in office, fair trade and industry environments that can be simply stuck together, without drilling, screwing or the use of adhesive bonding, due to its modular design.

All components are standardised and precision-made using CNC machines. Because of the modular design cabins can be flexibly adjusted to existing rooms.

The assembly time for a Spacio Brick is quick and can be done by us or by the customer himself as no drilling, screwing or proofing is needed.

Our cabins are not permanent installations, but are units that can simply be demounted and assembled when moving to another office building. Because of this modular brick concept our cabin systems are also well suited for use at trade fairs and road shows.

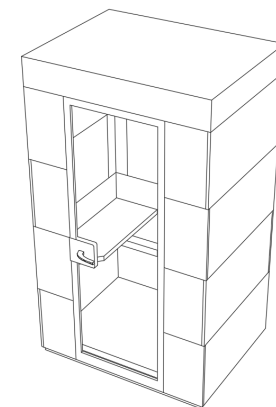

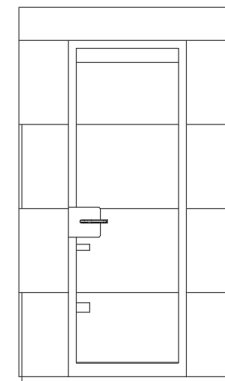

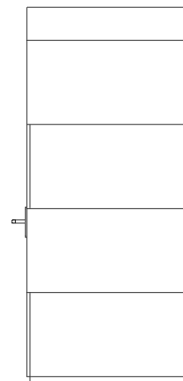

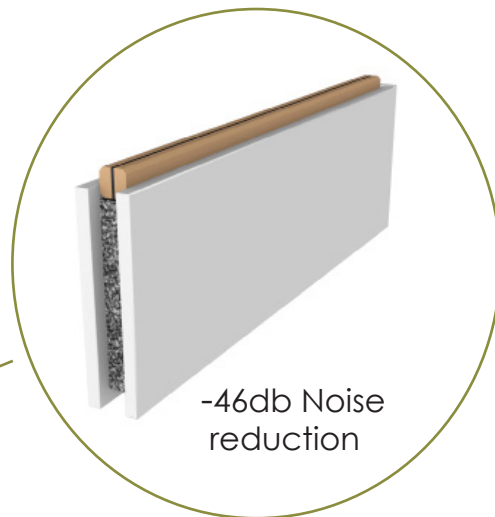

As a special service we also offer customised branding to adapt them to the existing environment or match with existing CI guidelines.

Spacio Bricks is a modular cabin system that is quick to assemble and disassemble, while creating sound-absorbing work and privacy areas.

The perfect solution for:

- Open office environments
- Start-ups
- Call centres
- Agencies
- Financial service providers
- Trade fairs and road shows
- E-Learning
- Lounges (airports, train stations, etc.)
- Noise-intensive production lines
- Nursing mothers back at work (privacy film manifestation to glazed door)

- Easy to assemble
- No screws, glue or drilling
- Freestanding
- Fully customisable
- Optional 'ON AIR' sign
- Door made of laminated safety glass with sound insulation
- Plug & Play - simple connection for power supply and ethernet

Spacio Bricks Range

Phone Booth (1 Person)

Mini Work Pod (1 Person)

Meeting Pod (3 Person)

Conference Pod (4-6 Person)

Spacio Bricks Phone Booth

A flexible and space-saving solution this sound-proof booth for undisturbed phone calls and work space is ideal for one person.

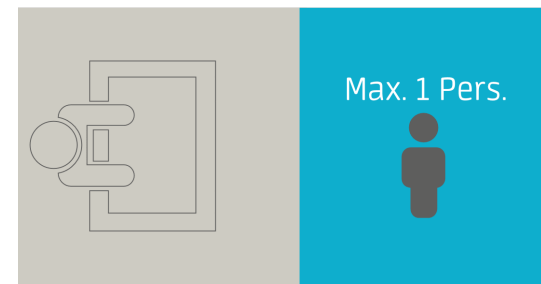

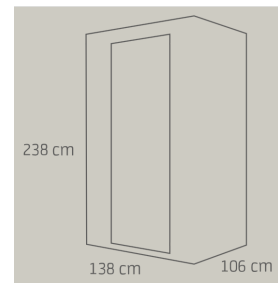

Details:

- Flexible and space-saving solution for any working environment
- Soundproof booth for undisturbed phone calls
- Sound isolation due to double-walled structure
- No external noise in the cabin
- Inside conversations cannot be overheard from outside
- Quiet area for increased work focus

Specifications:

- Standard white panels with graphite grey door frame
- Integrated desk
- Double-glazed window and door
- Space for a bar stool
- Working light and electric fan for fresh air
- Connections: electric sockets, ethernet ports, USB
- Internal dimensions: 122 x 90 x 204 cm
- External dimensions: 138 x 106 x 238 cm
- Optional 'On Air' sign (£475)
- Available in any RAL color (10% uplift applies)

RRP: £10,045.00

Spacio Bricks Mini Pod

The optimal soundproof booth for making phone calls, long-lasting intensive working as well as video conferences. Provides space for 1 person.

Grey

Spacio Bricks Custom Made

In addition to our 4 standard, ready-to-use units, we offer customised solutions to make sure your needs are met.

The following customisations are available:

- Cabin size (any size within the 300mm modular grid pattern is available)
- Individual colour design (all NCS colors available) and printing of parts or the entire cabin on demand
- Individual branding and printing with patterns and structures (e. g. concrete-like design) available
- Individual colour combination of bricks and absorbers

Custom Branding

- Custom-built interior fittings and designs (for example video screens, desktop references or acoustic absorbers in several designs).
- Further optional add-ons available like 'On Air' sign, bench seat, special resistant surface, light panel, folding door, individual interior fittings.

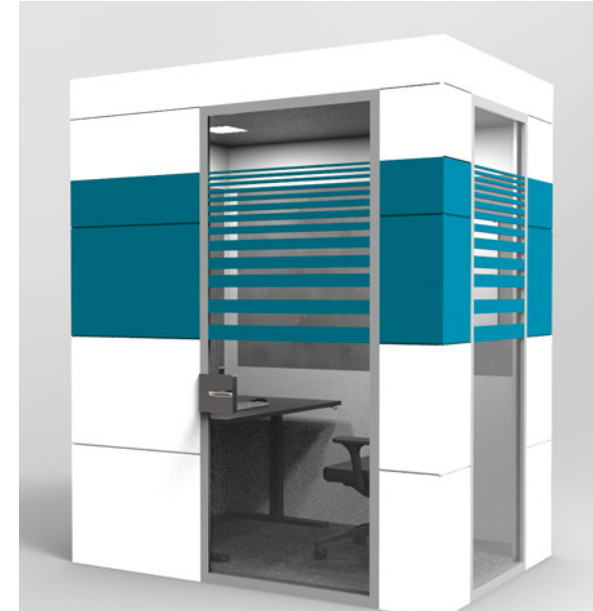

Special Designs

We also offer special designed Spacio Bricks cabins, e.g.:

- Logo milling
- Texture printing, e.g., cement style

Complete Room Solutions

We can gladly advise you and make you a suitable offer depending on your needs.
