Stolen løser ønsket om nemt at kunne sætte/hænge sin stol på plads igen efter brug på en ny og intuitiv måde. Via en slids i stolens sæde og kun én tilhørende knop under bordet, kan processen gøres enklere end med traditionelle ophæng. Slidsen gentages som affjedrende element i ryggen. Split er kompakt og giver derfor en effektiv pladsudnyttelse. Sædet og ryggen i PUR-gummi gør stolen robust, men giver samtidig stolen blødhed og gør stolen meget komfortabel at sidde i og nem at renholde. Split stolen er stabelbar.

The chair meets the request for being able to hang the chair under the table easily in a new and intuitive way. Due to the split seat, one knob under the table serves as a hang-up device, a much simpler process than with traditional devices. The split is repeated in the back as a springy element. The Split chair is compact and thus space-saving. The PUR-rubber seat and back makes the chair sturdy, but at the same time it provides the chair with softness, making the chair very comfortable to sit in and very easy to clean. The Split chair is stackable.
