Linking Table System

Circular tables

Standing tables

Flexible communication with Sedus talk about.

There is no magic about speed. Sedus talk about responds to the most diverse requirements with short assembly and disassembly times and combines two systems in one: folding, individual table legs can be fixed into place with a simple turn and the T-leg can be folded up in seconds. Both options can be linked with sectors and interconnecting tops without the need for any tools and with no tedious tightening of screws. Design: bert&bert

Sedus talk about: fast assembly / fast re-configuration / fast disassembly.

Individual tables and interconnecting tops

Square, rectangular and trapezoidal tables can be connected together with sectoral shapes to construct different table configurations. This is easily and quickly facilitated without tools, and allows for the building of the desired table arrangements that might suit any variety of meeting participants or communication methods.

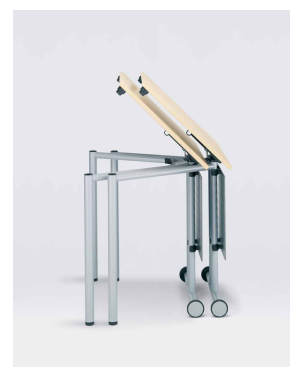

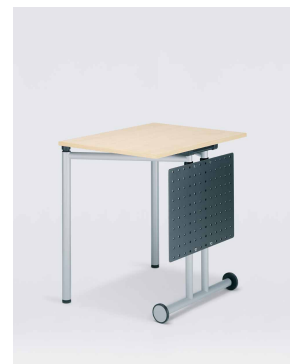

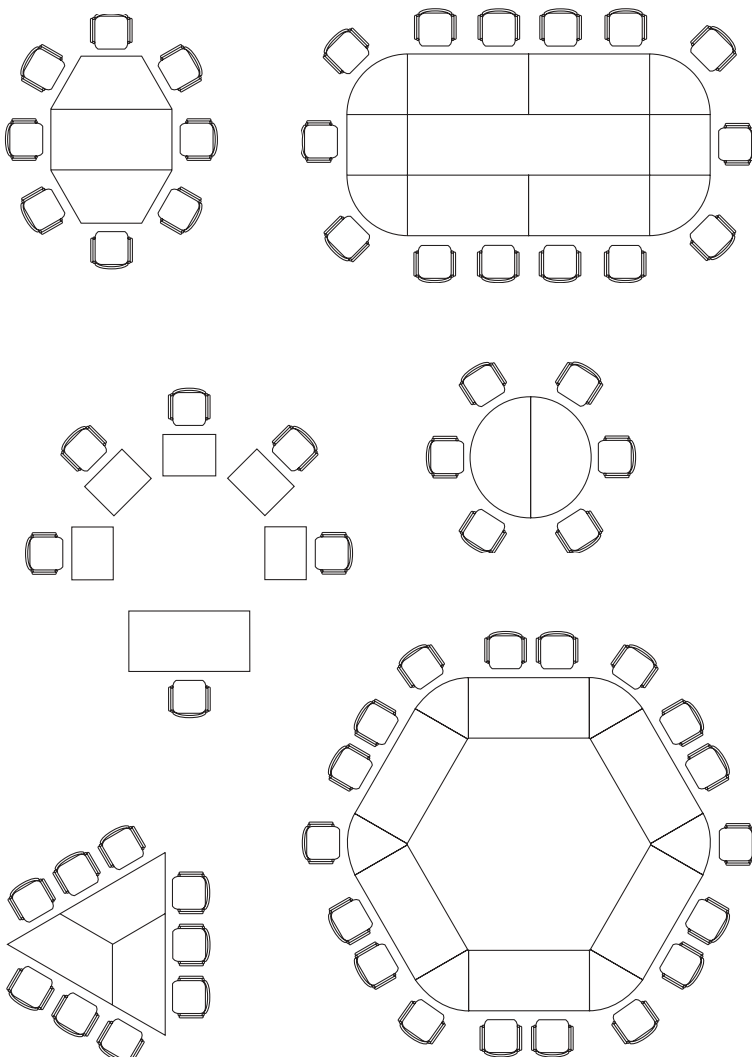

Folding tables

Rectangular and square tables can be purchased with folding T-legs. This offers the highest degree of flexibility and user-friendliness when it comes to assembly, storage or re-configuration. (ill: left)

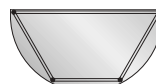

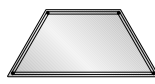

Personal desks

Mobile and parkable Personal desks add to the flexibility and broaden the potential applications of the talk about range. As well as being linkable they can also be fitted with an optional modesty panel. (ill: under)
