trust

The folding table with a four-footed frame.

Light and stable

Design: Roland Schmidt, LSS designer

trust: the smart line of folding tables.

We produce furniture for the broadest range of settings – as well as being a market leader in the field of high-quality utility tables. A prime example of this is the trust four-footed folding table. Suitable for a variety of uses, trust fits into a variety of settings, including offices, events and cafeterias. Not all of the table's capabilities are immediately apparent – its business-like design conceals many functions.

Design: Roland Schmidt, LSS designer

- Business-like design
- Multiplicity of uses
- Light
- Easy to handle
- Stable
- Space saving
- Stackable
- Versatile
- Convenient accessories

Areas of application

universal

trust does not look like a folding table. However, it offers all the advantages of one. What's more, it opens up a variety of options.

office

Whether as a conference table, in a seminar or as a fixed work station: stable and secure, with plenty of leg room.

event

Quick setup and tear down, easy to move, space-saving storage: trust is perfect for events of all kinds.

cafeteria

Space counts in a canteen. trust provides room for guests, even making sitting at the end of the table a comfortable experience.

Frame aluminium

Job done: a table that can do more.

trust is a lightweight, general purpose line of tables. Highly functional without having to look it. Thanks to the classic four-footed frame, the table does not give the impression that it is a folding table. The sleek, business-like design, completely free of obtrusive hardware, makes this table as versatile as it is; it impresses with its stability, whether used, for example, in an office, at events or in the cafeteria. A frame made from aluminium and the thin table top ensure that trust nonetheless remains pleasantly lightweight – in form and in terms of its ease of handling.

Variants: classy visual impression thanks to chromed aluminium with a light-weight table top, more business-like feel due to matt appearance and slimline light-weight table top.

Frame in shape:
classic mitred
design or
rounded in the
base design.

Good in combination: A selection that fits.

trust offers a large selection of table top dimensions and shapes, different frame versions and, with four different edge designs, even more possible variations. This enables the series to be combined in such a way as to make it a fit in any design concept. It is also very comfortable for the user: This table offers great leg room.

trust makes space – its slimline mechanism offers greater leg room than standard folding tables.

Well set up: a mechanism to make users happy.

trust provides space for a number of guests while also remaining simple: single-handed operation enables the table to be folded and carried away single-handedly by one person. The offset positioning of the legs when folding further reduces the space required during storage. The handling, which is practical in any case, can be made even easier thanks to numerous options, such as integrated casters. Or the transport cart on which up to ten tables can be moved and stored.

Optional: casters in two of the feet can make moving trust even more convenient.

Notes

See the current pricelist for details, prices and terms of business.
Technical changes, errors and colour variations excepted.
Some of the models depicted are special, premium-cost designs.
Wood is a natural product. For our furniture ranges, we use only high-quality beech from sustainable forestry sources.
Despite the woods being carefully selected, there may be variations in colour. Variations in colour and pattern are not grounds for product returns but rather an expression of the unique character of wooden furniture.
