SCE1A1

Double 800 Side-by-Side Task
SCE1A2

Double 1200 Back-to-Back Task
SCE2A3

Quad 1200 Task
SCE2A5

Cubbi environmental piece of mind

In everything we do, our aim is to ensure we act ethically and responsibly by adopting a high level of Corporate Social Responsibility. This is embedded in all our practices to the benefit of our customers, employees, suppliers and the communities within which we operate.

Connection are committed to minimising the environmental impact of our operations and ensure our products are as sustainable as we can make them.

Throughout all Connection's processes, we consider their impact upon the environment, from the initial design of the product, through its manufacture and delivery, right up to its disposal when it has reached the end of its useful life.

Cubbi's durable design characteristics ensure a long lifespan of the product and a chair that will satisfy your ethical concerns for the environment.

In 2012 Connection gained full membership to FISP (Furniture Industry Sustainability Programme) to further demonstrate our commitment to measuring and improving environmental impacts.

FISP accreditation shows that we continually strive to improve our processes, taking every opportunity to reduce, reuse and recycle throughout the lifecycle of the product.
