| starr

| Starr is a multi-purpose high density stacking chair that towers above the competition with its highly contoured, slim-line appearance and ability to stack 45 chairs high on a trolley.

| Ideally suited to conference, meeting, training, dining and visitor areas, Starr's seat and back have been ergonomically designed to ensure the most comfortable sit over long periods of time.

| Starr is available with or without arms and may be specified in plastic, veneer or with an upholstered seat or back. Starr comes with a 10 year warranty and has a 2 week lead time when specified in black plastic.

Since 1983 Boss Design has supplied furniture to the meeting and conferencing sector.

Our clients include:- International Convention Centre (ICC) Birmingham, Convention Centre Dublin (CCD), Edinburgh International Convention Centre (EICC) and Hilton Hotels Corporation.

The photograph shown is from an installation at the Heritage Motor Museum in Gaydon.

## features

### writing tablet

A detachable black laminate writing tablet is available on the arm chair and non arm chair. The writing tablet is right handed.

### stacking buffers

Uniquely tooled to aid installation on high stacks and protect individual chairs through the addition of a soft felt insert.

### linking

Starr is available with a choice of two types of integrated linking systems which are hinged at the frame and provide a strong, reliable connection when in use. They are neatly hidden when not in use.

Linking is available as:-

1. Floor Linking (suitable for non arm to non arm configurations).
2. Three Position Under Seat Linking enabling the linking of any combination of armchairs and non arm chairs.

### seat numbering

Seat numbering tags in black polypropylene are also available on the Starr chair.

### robust chrome frame

The skid frame on Starr is of 11mm round, solid steel rod.

## standard finishes available on the veneered chair

Natural beech

Natural oak

## choice of finishes

The plastic chair can be specified in the following standard colours shown above. Black is available on a 2 week lead time. You can also have this chair with an upholstered seat. When specified with arms the colour of the arms will match the plastic back.

The veneered chair is available in natural beech or natural oak as standard. Other veneers are available on request. When specified with arms these are supplied in black plastic.

The Starr chair maybe specified part or fully upholstered in any fabric or leather.

## stacking

Starr is ideally suited to environments that demand large numbers of chairs that can be easily stored when not in use. The non-arm chair will stack 45 chairs high on a trolley and 40 chairs high with arms. When stacked on a trolley the floor space required is less than 1 square metre.

# environment

The Starr range has been designed with the needs of the user and the environment in mind and has been designed to minimise any negative effect on the environment.

During its life, components such as the seat and back can be easily removed and replaced if required. The seats, backs, armrests, frames and chroming are all produced in accordance with the ISO: 14001 standards. At the end of its life Starr can simply be disassembled so that each component can be appropriately recycled.

Presented with The Queen's Award for Sustainable Development 2009, FSC accredited and a carbon neutral company, we only work with like minded suppliers who use raw materials and components obtained only from ethical sources.

Uncompromising on quality, we purchase materials with a high recycled content. We work closely with local suppliers and constantly review our global logistics operation to ensure we minimise any negative impact on the environment.

We actively monitor the carbon footprint of our products throughout their life-cycle to ensure they meet Boss Design's environmental policy.

We partner with the Greenworks organisation to deliver our award winning end-of-life product management process, where we arrange for our client's old furniture items to be collected and redistributed to charities and other good causes. Alternatively, unsuitable furniture is always broken down and recycled.

## starr and the environment

Non Armed Starr Chair	
Recycled Content	69.83%
Recyclability	100%
CO2 per 1000 units	20.61 tonnes

## warranty

Boss Design provides a 10 year guarantee on all Starr chairs. This guarantee is valid from date of delivery. The Boss Design warranty becomes invalid, if the product shows signs of abuse or improper use or other physical damage.

The Boss Design warranty excludes those parts, which are subject to normal wear and tear in use. The Boss Design 10 year warranty also excludes surfaces on chairs seats and backs.
