

Visavis 2/Visaroll 2/Visavis Softback

www.vitra.com/visavis2

Developed by Vitra in Switzerland
Design: **Antonio Citterio**

The discreet design of the Visavis 2, Visaroll 2 and the Visavis Softback visitor's chairs makes them an ideal accompaniment to the office swivel chairs in Vitra's Citterio Collection, as well as to a wide range of other office chairs. They are suitable for use as vis-à-vis chairs in offices, as well as for general and large-scale seating in seminar and meeting rooms or auditoria.

From a design perspective, the three visitor's chairs not only match one another but can also be combined with a number of other chairs.

Comfortable

The cantilever seat with free suspension is comfortably upholstered, while the flexible perforated backrest ensures constant air circulation.

Three characters

The three chairs can be used in a number of different ways: The Visavis 2 can be used in a wide variety of spaces and thanks to the large choice of fabric covers and colours, it can be combined with other visitor's chairs as well. The Visavis Softback meets the high demands of prestigious design, while the Visaroll 2 is particularly suitable for spontaneous meetings and changing environments.

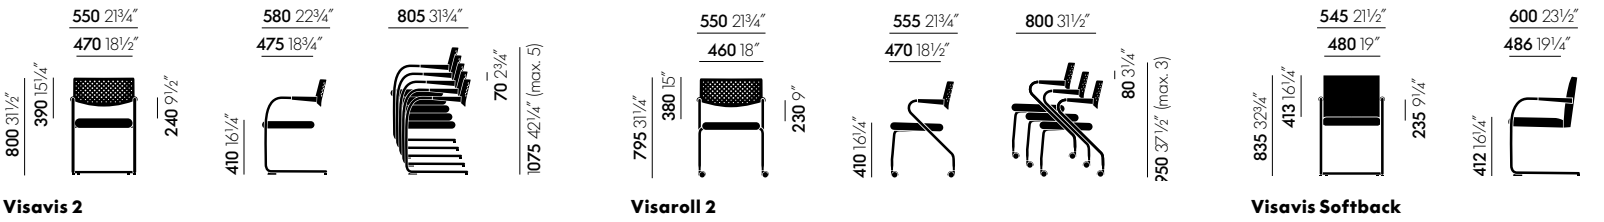

Visavis 2 and Visaroll 2 can be stacked.

The leather used for the Visavis Softback and Visavis 2 comes with a decorative seam.

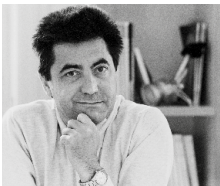

Measurements

All measurements in millimetres and inches, established pursuant to EN 1335-1

Antonio Citterio
*1950, Italy

Antonio Citterio is an architect and designer who lives and works in Milan. He has been working with Vitra since 1988. During this time he has created a whole range of office chair and office systems as well as products for the Vitra Home Collection. The Citterio Collection is constantly being developed and expanded.
